Services Overview

Networking & Infrastructure

Design, deployment, and management of LAN/WAN environments, structured cabling, Wi-Fi 6 access points, managed switches, and VPN gateway solutions.

Cloud Services

Microsoft 365 deployment, Azure cloud migration, hybrid cloud architecture, Google Workspace management, and cloud backup solutions.

Cybersecurity

Next-generation firewall implementation (Fortinet, Cisco, Sophos), endpoint protection, vulnerability assessments, and security policy management.

Data Recovery

Forensic-grade recovery from HDDs, SSDs, RAID arrays, USB devices, and SD cards. Success rate >92%. Secure chain of custody. Emergency 24x7 hotline available.

AMC Support Plans

Basic, Standard, and Enterprise SLA tiers covering hardware, software, on-site visits, remote assistance, and preventive maintenance schedules.

Industries Served

• Healthcare & Hospitals	• Education & Universities
• Manufacturing & Logistics	• Financial Services & Banking
• Retail Chains	• Government & Public Sector
• Hospitality	• SMEs & Startups

Technology Partners

Cisco | Fortinet | HP | Dell | Lenovo | Microsoft | Sophos
Seagate | WD | Kingston | TP-Link | Ubiquiti | Synology

Why Choose Shawan Tech?

ISO-Aligned Processes

Our workflows conform to ISO/IEC 27001 (information security) and ITIL service management frameworks – ensuring consistency, auditability, and compliance.

Certified Engineers

Our team holds certifications including CCNA, CompTIA Network+, CEH, and Microsoft Certified Azure Administrator credentials.

24x7 Emergency Support

Round-the-clock support desk for critical incidents, data loss emergencies, and network outages – with guaranteed SLA response times.

Transparent Pricing

No hidden charges. Fixed-price AMC contracts. Quote-based project pricing with detailed scope of work before any engagement begins.

Quality Hardware

Every refurbished unit undergoes 47-point hardware diagnostics before dispatch. All genuine spare parts sourced directly from authorised distributors.

Get in Touch

We invite you to schedule a free IT infrastructure assessment.

Our consultants will evaluate your current setup and recommend the optimal path forward – at zero obligation.
